**RE: Brattleboro BF 2000 (26) – EPSC Best Management Practices**

Dear Ann:

The above mentioned project has no in stream work or significant excavation so no EPSC plan is necessary per the contract. RBI will use best management practices for any erosion and sediment mitigation.

Any significant changes to the excavation, erosion and sediment control scope will be discussed with the Resident Engineer.

Sincerely,

Renaud Bros., Inc.

Charlie Ezequelle  
Project Manager
